Education

National Institute of Advanced Manufacturing Technology (NIAMT)

Bachelor of Technology in Computer Engineering, CGPA: 7.3/10

2023 – 2027

Ranchi, Jharkhand

Saint Vivekanand Sr. Sec. Public School

CBSE Class XII: 85.3% CBSE Class X: 85%

2022

Etawah, Uttar Pradesh

Experience

Full Stack Developer

Nov 2025 – May 2026

Shreesam Tech

Noida, India

- Architected a multi-tenant School Management SaaS, delivering **10+ responsive web pages** and **20+ secure REST APIs** for 4 user roles.
- Implemented **role-based authentication** and **tenant-level data isolation**, enabling secure access control and scalable deployment across multiple organizations.
- Optimized API response time by **35%** and reduced database query latency by **30%**, improving overall application performance and user experience.

Open Source Contributor

June 2024 – August 2024

GirlScript Summer of Code (GSSoC)

Remote

- Delivered **20+ merged commits** across 5 open-source repositories, accelerating feature development and improving software reliability through high-quality code contributions.
- Implemented multiple user-facing features and resolved critical bugs, enhancing application functionality while adhering to maintainable, scalable coding practices.

Technical Skills

Languages: C, C++, JavaScript, TypeScript, SQL

Developer Tools: Git, GitHub, GitLab, VS Code, Postman, Vercel, Railway

Tech./Frameworks: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn UI, Node.js, Express.js, REST APIs, Prisma ORM, Clerk Authentication, JWT, PostgreSQL, MongoDB

Relevant Coursework: DSA, Operating Systems, DBMS, Computer Networks, OOPS, Software Engineering

Projects

Occazi - Event Management Platform 🌐 | Next.js 15, TypeScript, Convex, Clerk, Tailwind CSS Jan – March 2026

- Built a full-stack Event management platform serving **200+ users** and handling **500+ event registrations** with real-time event, attendee, and organizer workflows.
- Automated event creation using **Google Gemini AI**, reducing manual content generation time by **70%** while improving event publishing efficiency.
- Developed **QR-based ticket verification**, real-time data synchronization, secure authentication, and a subscription system, delivering a scalable SaaS experience for organizers.

PeerReview – AI Resume Review Platform 🌐 | Next.js 15, Prisma ORM, PostgreSQL, JWT, AI June – July 2026

- Engineered an AI-powered resume review platform with collaborative peer reviews, **ATS scoring**, and personalized AI feedback, helping users optimize resumes for software engineering roles.
- Developed **20+ secure REST APIs** supporting **JWT** authentication, PDF/DOCX parsing, and scalable document processing for reliable resume analysis.
- Implemented a gamified community system with reputation points, XP progression, and leaderboards, encouraging active participation and high-quality resume reviews.

Leadership & Achievements

- **Community Lead, Code Forge (NIAMT):** Led development of the official website and digital platforms for technical events and community initiatives.
- **Student Organizer, rTIME-2025:** Managed the conference website and digital operations for an international conference with 110+ research paper presentations.
- **Campus Mantri, GeeksforGeeks:** Organized coding contests, technical workshops, and developer community initiatives across campus.
- Solved **500+ DSA problems** across LeetCode, CodeChef, and GeeksforGeeks, strengthening problem-solving and algorithmic skills.
